### Re: QA Tester

Dear Fredrik Johnsson,

I was thrilled when I saw your tweet telling that EA Gothenburg were looking for new members to join the studio! For me, the gaming industry has always been seen as the place where one gets the chance to experience and work with cutting edge computer technology. I had almost given up hope of finding a job that combines both the use of knowledge acquired during my education and the skills I have had the pleasure of learning when modding games for my own personal satisfaction, before spotting the ad.

I am looking for a work place where I get to develop my skills in coding and increase my knowledge in how the game development process works, as well as putting my good skills in communication to use. I have been involved in the development of two major game modification projects and have always had an interest in how games work on the inside, checking for modifiable content of the games I play. I am also sort of a perfectionist and will usually try to correct erroneous graphics, text or game behaviour when I spot it.

The QA Tester position seems just like the right position for me where my skills in mathematics, computational science, programming and communications combined with my perfectionist side would come to good use. I am hard working, tenacious and a fast learner. My Bachelor's and Master's studies have given me a broad knowledge base that can be applied on the diverse tasks that a QA Tester need to be able to handle.

Thank you for your consideration of my application, I hope you will find my qualifications suited for the QA Tester position. Should you have any questions, feel free to contact me at your convenience. I look forward to meeting you!

Sincerely,

Johan Elisson.

## Education

### **Chalmers University of Technology, 2008–2012**

Master of Science, Engineering mathematics and computational science (unfinished).

### **Chalmers University of Technology, 2004–2008**

Bachelor of Science, Engineering physics.

### **Frölundagymnasiet, 2000–2003**

Secondary school, specially designed natural sciences/IT/electronics programme.

## Work experience

### **Hemköp, Frölunda Torg, 2002–**

Shop assistant with responsibility for various departments including the handling of orders and planning for future campaigns.

## Other experience, positions of trust

### **Supporterklubben Änglarna, 2011–**

Board member, project leader and webmaster for the organization's website, chronicler for the members' magazine and project manager/editor for the upcoming 40 year jubilee book.

### **Swedish Army, Norrbottens regemente, 2003–2004**

Squad leader for a guard squad during the conscripted military service, developing my leadership skills by leading a group of seven on independent missions and tasks.

## Languages

**Swedish** Native proficiency.

**English** Professional working proficiency.

**German** Elementary proficiency.

## Interests and hobbies

I am currently committed to a book project for Supporterklubben Änglarna, doing work as project manager, editor and writer. Following IFK Göteborg is of course a passion and besides Änglarna I am also involved in the operation of Sweden's largest supporter blog, BaraBen.com. When football is not on the schedule I relax by playing and modifying games – both alone and as part of multi-person projects. I am also involved in the online community, moderating one of Sweden's largest forums together with my colleagues.
